Attention: Buddy Hill

Dear Mr. Hill:

All surface damage/restoration violations for the above referenced wells have been corrected as of 6/2/2008, and ready for your inspection with the exception of inspection # iLWH0806657353 for the Myers Langlie Mattix Unit #11. Per conversation with CJ, the equipment has been removed but the restoration of the well has been put on hold due to complications with the landowner. If you have any questions, please call me at 575-397-8216.

Sincerely,

CJ Summers

LETTER OF VIOLATION - Inspection

Dear Operator:

The following inspection(s) indicate that the well, equipment, location or operational status of the well(s) failed to meet standards of the New Mexico Oil Conservation Division as described in the detail section below. To comply with standards imposed by Rules and Regulations of the Division, corrective action must be taken immediately and the situation brought into compliance. The detail section indicates preliminary findings and/or probable nature of the violation. This determination is based on an inspection of your well or facility by an inspector employed by the Oil Conservation Division on the date(s) indicated.

Please notify the proper district office of the Division, in writing, of the date corrective actions are scheduled to be made so that arrangements can be made to reinspect the well and/or facility.

In the event that a satisfactory response is not received to this letter of direction by the "Corrective Action Due By:" date shown above, further enforcement will occur. Such enforcement may include this office applying to the Division for an order summoning you to a hearing before a Division Examiner in Santa Fe to show cause why you should not be ordered to permanently plug and abandon this well. Such a hearing may result in imposition of CIVIL PENALTIES for your violation of OCD rules.

Sincerely,

Buddy Hill
