13 Describe Proposed or Completed Operation (clearly state all pertinent details, including estimated starting date of any proposed work and approximate duration thereof. If the proposal is to deepen directionally or recompleat horizontally, give subsurface locations and measured and true vertical depths of all pertinent markers and zones Attach the Bond under which the work will be performed or provide the Bond No on file with BLM/BIA. Required subsequent reports shall be filed within 30 days following completion of the involved operations. If the operation results in a multiple completion or recompleat in a new interval, a Form 3160-4 shall be filed once testing has been completed. Final Abandonment Notices shall be filed only after all requirements, including reclamation, have been completed, and the operator has determined that the site is ready for final inspection )

After evaluating log & geology, this well has a lot of small thin stringers sands & limes that show possible to probable production. Our plans is to check integrity of well, bleed well down, run bop ck for H2s before hand toh with any down hole equipment load hold, run ATDT neutron log and look for pay at 8612-30-7750 & 8810-30 & 40-70. come up hole to 5276, well is set at 8495 & maybe sob pump poss then decide which zone to shoot and attempt to complete

By 8/24/08, either return well to production or submit plans for abandonment

14. I hereby certify that the foregoing is true and correct
