COMMENCE DRILLING OPNS. ☐ P AND A ☐  
CASING/CEMENT JOB ☐

OTHER: MIT & Return to Injection ☒

13. Describe proposed or completed operations. (Clearly state all pertinent details, and give pertinent dates, including estimated date of starting any proposed work). SEE RULE 1103. For Multiple Completions: Attach wellbore diagram of proposed completion or recompletion.

To bring this well back to active injection status, we ran an MIT on the well on August 13, 2008. After running in hole with injection tubing(plastic lined) and Baker AD-1 IPC packer, circulated packer fluid, then set packer w/12K tension at 3490'. Called NMOCDC to witness MIT of tubing/casing annulus ~~but no one showed up.~~ *Buddy Hill did!*  
On August 13, 2008 pressured annulus to 625 psig and held pressure for 30 minutes with no loss of pressure. Tested OK. Put well back into injection service taking 75 BWPD @ 170 psi.
