13. Describe Proposed or Completed Operation (clearly state all pertinent details, including estimated starting date of any proposed work and approximate duration thereof. If the proposal is to deepen directionally or recompleat horizontally, give subsurface locations and measured and true vertical depths of all pertinent markers and zones. Attach the Bond under which the work will be performed or provide the Bond No. on file with BLM/BIA. Required subsequent reports shall be filed within 30 days following completion of the involved operations. If the operation results in a multiple completion or recompleat in a new interval, a Form 3160-4 shall be filed once testing has been completed. Final Abandonment Notices shall be filed only after all requirements, including reclamation, have been completed, and the operator has determined that the site is ready for final inspection.)

R-11363

ConocoPhillips Company Respectfully requests approval to downhole commingling the Blinebry, Tubb and Drinkard preapproved pools in the area.

The Blinebry Oil & Gas, Warren Pool # (6660) is perfed from 6010'-6100'; the Tubb & Warren Pool # (60250) is perfed from 6470' - 6785'; and the Drinkard Pool # (19190) is perfed from 6805' - 6825'

Commingling will not reduce the value of the total remaining production.

We will use the Net Pay Method to allocate. The % of production is as follows: Blinebry Oil & Gas Warren is 75% oil, 75% water, 75% gas; the Tubb & Warren is 25% oil, 25% water, 25% gas. The Drinkard is 0% oil, 0% water, 0% gas.

The Drinkard is not contributing due to a failed frac. The McKee Simpson was permanently P & A'd with a bridge plug just prior to completion.
