13. Describe Proposed or Completed Operation. Clearly state all pertinent details, including estimated starting date of any proposed work and approximate duration thereof. If the proposal is to deepen directionally or recompleat horizontally, give subsurface locations and measured and true vertical depths of all pertinent markers and zones. Attach the Bond under which the work will be performed or provide the Bond No. on file with BLM/BIA. Required subsequent reports must be filed within 30 days following completion of the involved operations. If the operation results in a multiple completion or recompletion in a new interval, a Form 3160-4 must be filed once testing has been completed. Final Abandonment Notices must be filed only after all requirements, including reclamation, have been completed and the operator has determined that the site is ready for final inspection.)

1. A P&A marker will be erected over the wellbore with all required information welded into the marker.

2. The two areas of the closed drilling pit with no visible regrowth of vegetation will be capped with a 20 Mil. composite liner.

The first area was measured to be 71'x90', the second area was measured to be 62'x33'.

3. The vegetation from the location will be stripped and stockpiled. The caliches will be stripped from the location and lease road, the removed caliches will then be placed in a 2' lift over the top of the 20 Mil. liner. Sandy loam soil will then be removed from the location and lease road, the removed sandy loam soil will then be placed over the top of the 20 Mil. liner in a 6" lift.

4. The location and lease road will be ripped and the stockpiled vegetation will then be placed over the closed drilling pit area and ripped location area.

5. A road closure berm will be placed at the front of the lease road blocking entry to the site.

6. Upon notice received from the Roswell BLM Office the drilling pit area, location & lease road will be reseeded using the recommended BLM seed mix for the area.
