12. Describe proposed or completed operations. (Clearly state all pertinent details, and give pertinent dates, including estimated date of starting any proposed work). SEE RULE 1103. For Multiple Completions: Attach wellbore diagram of proposed completion or recompilation.

The Lowe 1 is no longer economical to produce in the Wolfcamp. Our plans are to squeeze off the present perforations in the Wolfcamp, drill out the cement and pressure test the squeeze job. If the pressure test is successful, the well will be recompleted in the Devonian and produced with a submersible pump. Our plans are to start this work in the next nine (9) months.

I hereby certify that the information above is true and complete to the best of my knowledge and belief.
