13. Describe Proposed or Completed Operation (clearly state all pertinent details, including estimated starting date of any proposed work and approximate duration thereof. If the proposal is to deepen directionally or recompleate horizontally, give subsurface locations and measured and true vertical depths of all pertinent markers and zones. Attach the Bond under which the work will be performed or provide the Bond No. on file with BLM/BIA. Required subsequent reports shall be filed within 30 days following completion of the involved operations. If the operation results in a multiple completion or recompleation in a new interval, a Form 3160-4 shall be filed once testing has been completed. Final Abandonment Notices shall be filed only after all requirements, including reclamation, have been completed, and the operator has determined that the site is ready for final inspection.)

Caza Operating has completed the reclamation of the reserve pit which was used in conjunction of the drilling of the Subject well. It has been handled as per NMOCD. We have accompanied this Sundry with a copy of the Completed State form C-144 for your viewing. This well had been original approved by the State of New Mexico to be deep buried. Subsequent to that approval the NMOCD ordered Caza to HAUL OFF the pit contents to an State approved location. This report is the completed result of that order.
