13. Describe Proposed or Completed Operations (Clearly state all pertinent details, and give pertinent dates, including estimated date of starting any proposed work. If well is directionally drilled, give subsurface locations and measured and true vertical depths for all markers and zones pertinent to this work.)*

Yates Petroleum Corporation respectfully request administrative approval for the addition to Off Lease Measurement, Surface Commingle previously filed January 29, 1997.

Please see attached application.

Application has also been made to the Oil Conservation Division Santa Fe, District Office, and Commissioner of Public Lands.

Gas from this well is measured on lease and processed through the Amanda Gas System.

GWW

Yates Petroleum Corporation is requesting approval for the addition of the Thyme APY Federal #11 to the surface commingling and off lease storage and measurement of hydrocarbon production from the following formation(s) and well(s) on Federal Lease No. NMNM81274; Lease Name Thyme APY Fedael.

<u>Well No.</u>	<u>Loc.</u>	<u>Sec.</u>	<u>Twp.</u>	<u>Rng.</u>	<u>Formation.</u>	<u>API No</u>
1	B	1	23S	32E	Red Tank/Bone Spring	30-025-33370
2	G	1	23S	32E	Red Tank/Bone Spring	30-025-33529
3	C	1	23S	32E	Red Tank/Delaware W	30-025-33530
11	L	1	23S	32E	Red Tank/Delaware W	30-025-36192
					Diamondtail/Bone Spring	

with hydrocarbon production from the following formation(s) and well(s) on a State lease: No. V-4297 Lease Name Coriander AOC

<u>Well No.</u>	<u>Loc.</u>	<u>Sec.</u>	<u>Twp.</u>	<u>Rng.</u>	<u>Formation.</u>	
1	B	1	23S	32E	Red Tank/Bone Spring	30-025-33531
					Red Tank/Delaware W.	

The battery is located at the Thyme APY Federal #1. Please see attached plat and site facility diagram.

The working interest owners Have been notified of the proposal.

Application to all BLM, OCD, & Commissioner of Public Lands have been made.

The proposed commingling of production is in the interest of conservation and will not result in reduced royalty or improper measurement of production. Estimated daily production for the Thyme APY Federal #11 is 19 bls of oil, and 50 mcf.

The purpose of the surface/pool commingling, lease commingling, off lease storage and measurement is to reduce operating costs for storage and treating, thereby extending the economic life of each well. Without approval for utilizing existing batteries on adjacent leases, it will become necessary to built separate facilities for each well. This will greatly increase costs and shorten the economic life of the well.

The proposed commingling is necessary for economic operation of the above referenced leases.

We understand that the request approval will not constitute the granting of any right-of-way or construction rights not granted by the lease instrument. And, we will submit within 30 days an application for right-of-way approval to the BLM's Realty Section in your office it we have not already done so.

Sincerely,

Mayte Reyes
