13. Describe Proposed or Completed Operation (clearly state all pertinent details, including estimated starting date of any proposed work and approximate duration thereof. If the proposal is to deepen directionally or recompleat horizontally, give subsurface locations and measured and true vertical depths of all pertinent markers and zones. Attach the Bond under which the work will be performed or provide the Bond No. on file with BLM/BIA. Required subsequent reports shall be filed within 30 days following completion of the involved operations. If the operation results in a multiple completion or recompleat in a new interval, a Form 3160-4 shall be filed once testing has been completed. Final Abandonment Notices shall be filed only after all requirements, including reclamation, have been completed, and the operator has determined that the site is ready for final inspection.)

Request authority to add perforations within the Lower San Andres @ 4102-4290' in order to increase injection capacity. The additional injection capacity is required in order to accommodate the additional water production associated with the present development drilling program.

Application for authority to expand the existing injection interval is to be submitted to the New Mexico Oil Conservation Division, Santa Fe, NM. A copy of the request is attached.
