Chesapeake Operating, Inc. respectfully request to temporarily abandon this well for 5 years or the maximum time allowed. The Fred Turner # 1 well is inside the boundary area of the soon to be proposed "Nadine West Blinberry Water Flood Unit". Chesapeake has almost completed all preliminary Geology, Engineering, and Land research needed. It is expected that Chesapeake will apply for a Unitization Hearing by the end of the 2nd Quarter of 2009. This well bore adds a significant value to the unit and plans are for it to be converted to an injection well.

Please find the TA Procedure for this well.

Hi Pat,

Could you please take this request to TA this well over to the Hobbs OCD office please?
Please note that this is a change in plans from an already approved plug and abandonment to a temporarily abandonment.
I've provided a detailed explanation provided by Terry.
