3. Describe Proposed or Completed Operation (clearly state all pertinent details, including estimated starting date of any proposed work and approximate duration thereof. If the proposal is to deepen directionally or recompleat horizontally, give subsurface locations and measured and true vertical depths of all pertinent markers and zones. Attach the Bond under which the work will be performed or provide the Bond No. on file with BLM/BIA. Required subsequent reports shall be filed within 30 days following completion of the involved operations. If the operation results in a multiple completion or recompleat in a new interval, a Form 3160-4 shall be filed once testing has been completed. Final Abandonment Notices shall be filed only after all requirements, including reclamation, have been completed, and the operator has determined that the site is ready for final inspection.)

BTA Oil Producers respectfully requests permission for off-lease movement, after measurement, of hydrocarbons. This is a one-time request. We plan to P&A our Maddox Fed, 8016 JV-P #1. We have 88 bbls of stock-on-hand that we need to move from the battery. We would like to have this stock moved to the Maddox Fed B, 8016 JV-P, #2 (30-025-30128) battery. Our intent is to put this volume at a central location in order to make a full load for transporter pick up. The basis of this request is to prevent waste and to be able to take advantage of current market pricing. The load from each lease will be measured accurately by gauging and will be documented at both locations prior to and after transporting. With such accurate record-keeping, we do not anticipate payout complications. We believe that, by moving the measured hydrocarbons to a central point for sale, we are not hurting the value of production.

Like request has been submitted to the State (copy attached).
