13. This well is being used for (check one):
☐ Production of oil, gas, or other hydrocarbon fluids
☐ Production of geothermal fluids
☐ Production of water
☐ Production of other fluids
☐ Other (specify):
If the well is being used for production of oil, gas, or other hydrocarbon fluids, the operator must submit a well log to the Bureau of Land Management (BLM) within 90 days of completion of the well. The well log must include the following information:
a. A description of the well, including the well name, well number, and well location.
b. A description of the well's construction, including the well casing, well cement, and well completion.
c. A description of the well's production history, including the well's production volume, production date, and production type.
d. A description of the well's abandonment history, including the well's abandonment date, abandonment reason, and abandonment type.
The well log must be submitted to the BLM in triplicate (original and two copies). The BLM will retain the original well log and return the two copies to the operator. The operator must also submit a copy of the well log to the state or local agency responsible for regulating oil and gas production in the area where the well is located.

Check box if approval is given. Approval of this notice does not warrant or certify that the operator meets any of the requirements of the subject notice. The well log must be submitted to the BLM in triplicate (original and two copies). The BLM will retain the original well log and return the two copies to the operator. The operator must also submit a copy of the well log to the state or local agency responsible for regulating oil and gas production in the area where the well is located.

Date of this notice: 11/01/2008. This notice is valid for one year from the date of this notice. If the operator is not in compliance with the requirements of the subject notice, the operator must submit a new notice to the BLM within 90 days of the expiration of this notice. The operator must also submit a copy of the new notice to the state or local agency responsible for regulating oil and gas production in the area where the well is located.
