12. Describe proposed or completed operations. (Clearly state all pertinent details, and give pertinent dates, including estimated date of starting any proposed work). SEE RULE 1103. For Multiple Completions: Attach wellbore diagram of proposed completion or recompilation.

BTA Oil Producers respectfully requests permission for off-lease movement, after measurement, of hydrocarbons. This is a one-time request. We plan to P&A our Maddox Fed, 8016 JV-P #1. We have 88 bbls of stock-on-hand that we need to move from the battery. We would like to have this stock moved to the Maddox Fed B, 8016 JV-P, #2 (30-025-30128) battery. Our intent is to put this volume at a central location in order to make a full load for transporter pick up. The basis of this request is to prevent waste and to be able to take advantage of current market pricing. The load from each lease will be measured accurately by gauging and will be documented at both locations prior to and after transporting. With such accurate record-keeping, we do not anticipate payout complications. We believe that, by moving the measured hydrocarbons to a central point for sale, we are not hurting the value of production.

Like request has been submitted to the BLM (copy attached) in well file

I hereby certify that the information above is true and complete to the best of my knowledge and belief.
