Importance: High

Hi Donna,

Attached is the C-104 for the return to the original Morrow on the Willie BNY State #6 (API #30-025-38090) that you requested. I checked with our engineer and the Atoka perfs are behind the packer as the tubing & packer are both set @ 12075' and the perfs are 11887-11895'. Therefore, we are only producing from the Morrow.

I have put the original C-104 in the mail.

Thanks for your help!

Allison Barton
