13. Describe Proposed or Completed Operation (clearly state all pertinent details, including estimated starting date of any proposed work and approximate duration thereof. If the proposal is to deepen directionally or recomplete horizontally, give subsurface locations and measured and true vertical depths of all pertinent markers and zones. Attach the Bond under which the work will be performed or provide the Bond No. on file with BLM/BIA. Required subsequent reports must be filed within 30 days following completion of the involved operations. If the operation results in a multiple completion or recompletion in a new interval, a Form 3160-4 must be filed once testing has been completed. Final Abandonment Notices must be filed only after all requirements, including reclamation, have been completed, and the operator has determined that the site is ready for final inspection.)

Per Order # R-1163, ConocoPhillips intends to downhole commingle the NM OCD Pre-Approved Pools: Warren Blinebry Tubb O&G (62965) and Warren Drinkard (63080).

The perforated intervals and allocations for each Pool are as follows:

Warren Blinebry Tubb (62965) 5801-6650	92% Oil	92% Gas
Warren Drinkard (63080) 6749-6783	08% Oil	08% Gas

Commingling of these pools will not reduce the value of the total remaining production. The ownership working % between the two intervals are identical.
