Subject: RE: Intent to drill McNeill C #1

Our field rep researched the rig and the BOP is a "3000# 10" Type E Shaffer BOP". If you need additional info let me know. I think we are going spud this well tomorrow evening. →

Yes, you need to submit the drawing or describe it on the C-101 per rule 109.C. And I will check with the front desk about the approval of this intent. They may have given your field rep. a verbal to move in on location, but no API # was assigned, because that is what I do. Please fax me the BOP. Thanks Donna

Are you talking about a schematic or drawing of the BOP? We did not submit one on the other 4 wells we drilled on this lease this year.

Dan, I am working on getting the McNeill C #1 intent to drill approved. But in reviewing the form, I see there is no symmetric of your Blow Out Preventer. This is required. Would you please fax me a copy of your Blow Out Preventer. My FAX # (505) 393-0720. If you have questions on this matter or others, please let me know. Thanks Donna
