Original C-103 dated 2/23/06 was filed to bring well up to production

On about 3/2006, workers went to set up on location and the well was found to be plugged and abandoned

Plans were never initiated

Well remains plugged and abandoned

On 5/18/09 Brian Williams, KOBİ and Robert Harris, OCD viewed a dry hole marker at the site

We respectfully request this well status be changed to Plugged &amp; Abandoned

Approved for plugging of well bore only.  
 Liability under bond is retained pending receipt  
 of C-103 (Subsequent Report of Well Plugging)  
 which may be found at OCD Web Page under  
 Forms: [www.emprd.state.nm.us/oed](http://www.emprd.state.nm.us/oed).

RE: South Caprock Queen Unit #14 (3000501163)

Dear Mr. Hill,

It was my pleasure to visit with you by phone earlier this week. I sincerely appreciate your understanding of the situation regarding the SCRQ #14. As I mentioned, it was plugged prior to our purchase from UNOCAL in 1990. We have taken exhaustive measures to try and locate a plugging report or any additional information pertaining to this well. We contacted UNOCAL (Chevron) and initiated a search of their archives, microfiche, etc. Unfortunately, our measures have been unsuccessful. I am submitting a C-103 and respectfully request the status of this well be changed to "Plugged & Abandoned", as it certainly is today. As I mentioned, while we were conducting our last MIT for the SCRQ 15-28, on 5/18/08, our field rep Brian Williams and Robert Harris, OCD viewed the dry hole marker on the site of this SCRQ #14.

I personally wish to thank you and the folks in your office for kindly assisting KOB I during the past few months. It is my hope to establish and maintain a productive and long-term working relationship with your office.

Attached please find our latest amended C-103 pertaining to the above.

Best regards,

Kevin O. Butler  
President
