13. Describe Proposed or Completed Operation (clearly state all pertinent details, included estimated starting date of any proposed work and approximate duration thereof. If the proposal is to deepen directionally or recompleat horizontally, give subsurface locations and measured and true vertical depths of all pertinent markers and zones Attach the bond under which the work will be performed or provide the Bond No. on file with BLM/BIA. Required subsequent reports shall be filed within 30 days following completion of the involved operations If the operation results in a multiple completion or recompleat in a new interval, a Form 3160-4 shall be filed once testing has been completed Final Abandonment Notices shall be filed only after all requirements, including reclamation, have been completed, and the operator has determined that the site is ready for final inspection.)

Cimarex proposes to bury a 4" fiberspar poly pipe line to a depth of 36" in order to transport oil, gas, and water on-lease from the Midway 17 Federal No. 4 in SWNW 17-15S-31E to the Midway 17 Federal No. 1 in NWNW 17-15S-31E. Oil, gas, and water will flow into the Midway 17 Federal No. 1 tank battery and will be allocated based on periodic well tests. This line will have a burst rating 3700 psi and MROP of 750 psi with anticipated working pressure 80 to 100 psi.

In the same trench, Cimarex proposes to lay a 2 3/4" 6.5# J-55 steel tubing line in order to supply lift gas to the Midway 17 Federal No. 4. This line will have a burst rating of 7260 psi working pressure of 200-300 psi.

Both lines will follow a previously arch-cleared lease road.
