Conditions of Approval**

- 1. Surface disturbance beyond the existing pad must have prior approval.**
- 2. Closed loop system required.**
- 3. 2M BOP required. Test BOP.**
- 4. Operator to have H2S monitoring equipment (personnel protection equipment) on location as there is H2S in the area.**
- 5. Proceed with proposed completion procedure.**
- 6. Subsequent sundry required with details of work performed and is to include new well test data.**
- 7. NOTE: The completion report indicated that the basis of determining that cement came to surface on the production casing was by calculation. Prior to plugging the well, a CBL will be required to determine actual TOC on the production casing. The drilling Conditions of Approval required that the cement circulate to surface on all three strings.**
