13. Describe Proposed or Completed Operation: Clearly state all pertinent details, including estimated starting date of any proposed work and approximate duration thereof. If the proposal is to deepen directionally or recompleat horizontally, give subsurface locations and measured and true vertical depths of all pertinent markers and zones. Attach the Bond under which the work will be performed or provide the Bond No. on file with BLM/BIA. Required subsequent reports must be filed within 30 days following completion of the involved operations. If the operation results in a multiple completion or recompleat in a new interval, a Form 3160-4 must be filed once testing has been completed. Final Abandonment Notices must be filed only after all requirements, including reclamation, have been completed and the operator has determined that the site is ready for final inspection)

Apache TA'd this well in Feb 2009. We received approval from the BLM to TA the well until 8/20/2009. Apache planned to re-complete this well in the upper Wolfcamp zone. Apache re-completed an offset well to the upper Wolfcamp and received water only. Therefore plans to re-complete in the upper Wolfcamp for the Federal A #2 have been reconsidered. While these plans are being reconsidered, Apache is asking for 30 days extension for this well. Per conversation with Duncan Whitlock 8/27/09 @ 575-234-5926, we have been granted an additional 30 days to file an intent to act on this well or plug the well. Within the 30 day period, Apache will send correspondence to the BLM to inform you of our planned actions.

30 day Ext. ON TA 7:11 9/27/09

After 9-27-09 the well must be online
or plans to P & A must be submitted.
