Order #09-JAF-009

13. Describe Proposed or Completed Operation (clearly state all pertinent details, including estimated starting date of any proposed work and approximate duration thereof. If the proposal is to deepen directionally or recomple horizontally, give subsurface locations and measured and true vertical depths of all pertinent markers and zones. Attach the Bond under which the work will be performed or provide the Bond No. on file with BLM/BIA. Required subsequent reports shall be filed within 30 days following completion of the involved operations. If the operation results in a multiple completion or recomple in a new interval, a Form 3160-4 shall be filed once testing has been completed. Final Abandonment Notices shall be filed only after all requirements, including reclamation, have been completed, and the operator has determined that the final site is ready for final inspection.)

Per phone conversation between Butch Willis, NPC rep and Jim Amos, BLM rep and location survey between Matt Lee and Butch Willis, NPC Reps, and Jim Wilson, Heavy Equipment Co rep, it was determined that for the safety of the trucks to come in and out of the location, NPC requests to leave the location as is. It was agreed that there would not be enough room for the trucks to enter, turn around, load and leave if we changed the battery location up.
