Form C-144 CLEZ  
July 21, 2008

For closed-loop systems that only use above ground steel tanks or haul-off bins and propose to implement waste removal for closure, submit to the appropriate NMOC District Office

### Closed-Loop System Permit or Closure Plan Application

(that only use above ground steel tanks or haul-off bins and propose to implement waste removal for closure)

Type of action: ☐ Permit ☒ Closure

Instructions: Please submit one application (Form C-144 CLEZ) per individual closed-loop system request. For any application request other than for a closed-loop system that only use above ground steel tanks or haul-off bins and propose to implement waste removal for closure, please submit a Form C-144.

Please be advised that approval of this request does not relieve the operator of liability should operations result in pollution of surface water, ground water or the environment. Nor does approval relieve the operator of its responsibility to comply with any other applicable governmental authority's rules, regulations or ordinances.

Mr. Buddy Hill  
Oil Conservation Division  
District I  
1625 French Drive  
Hobbs, New Mexico 88240

Mr. Hill:

On 10-16-2009 I contacted Mr. Carl Chavez with the Environmental Division of the Oil Conservation Division in Santa Fe to explain that Yates Petroleum Corporation had discovered internally that we had several approved C-144 CLEZ permits which involved work over activities where the work had been completed but due to a misunderstanding of the "new process" the C-144 CLEZ Closure Reports had inadvertently not been sent in. I asked Mr. Chavez how we should address this matter. Mr. Chavez stated that Yates should complete these Closure Reports and submit them to the appropriate District Offices as soon as possible with the attached explanation. Mr. Chavez also explained that these reports should be submitted within the 60 day required time limit as stated on the form. I assured Mr. Chavez that Yates would resolve the problem internally and that we will have future closures submitted within the allotted time.

I have enclosed 8, C-144 CLEZ completed closure plans which were discovered in our office that had not been submitted. If you should have any questions pertaining to these reports please feel free to contact Mr. Mike Allen, Completion Superintendent for Yates Petroleum at 575-748-1471 or myself at the number below.

Thanks for your help and understanding in this matter.

Yours truly,

Jerry D. Fanning, Jr.  
Environmental Coordinator  
Yates Petroleum Corporation
