13. Describe Proposed or Completed Operation (clearly state all pertinent details, including estimated starting date of any proposed work and approximate duration thereof. If the proposal is to deepen directionally or recompleat horizontally, give subsurface locations and measured and true vertical depths of all pertinent markers and zones. Attach the Bond under which the work will be performed or provide the Bond No. on file with BLM/BIA. Required subsequent reports must be filed within 30 days following completion of the involved operations. If the operation results in a multiple completion or recompleat in a new interval, a Form 3160-4 must be filed once testing has been completed. Final Abandonment Notices must be filed only after all requirements, including reclamation, have been completed, and the operator has determined that the site is ready for final inspection.)

The reclamation of the plugged location was completed on February 18, 2009 as follows:

1. All equipment was removed from location
2. All caliche and any contaminated soil was removed from location and taken to Sundance Disposal
4. Capped location with new clean fill and leveled. Built earthen barricade to prevent traffic
5. Reseeded all disturbed areas with BLM #2 seed mixture
