EXTENSION OF TIME

13. Describe Proposed or Completed Operation (clearly state all pertinent details, including estimated starting date of any proposed work and approximate duration thereof. If the proposal is to deepen directionally or recomplete horizontally, give subsurface locations and measured and true vertical depths of all pertinent markers and zones. Attach the Bond under which the work will be performed or provide the Bond No on file with BLM/BIA. Required subsequent reports shall be filed within 30 days following completion of the involved operations. If the operation results in a multiple completion or recompletion in a new interval, a Form 3160-4 shall be filed once testing has been completed. Final Abandonment Notices shall be Filed only after all requirements, including reclamation, have been completed, and the operator has determined that the site is ready for final inspection.)

We acquired this well in August 2008, and we have reviewed the well for possible recompletion. We believe that a Jalmat completion would increase production; however, the ownership in the Jalmat zone is in question. We would like to request a 4-month extension in order to complete the title work on the ownership so that we can determine if a Jalmat completion can be attempted.

After 2-22-2010 the well must be online or plans to P & A must be submitted.
