Re: Letter of Violation -- Inspection performed October 22, 2009  
Cato San Andres Unit Well Nos. 20, 21, 23, 26, 27, 28, 30, 48, 49, 50, 50J, 51,  
55, 56, 57, 73, 77, 79, 80, 81, 520, 533, 544, 547, 822, 827, 854

Dear Mr. Brown:

This responds to your October 23, 2009 letter setting out compliance matters regarding the above-referenced wells and identifies the corrective actions that Cano undertook prior to the deadline in your letter.

Enclosed for each of the referenced wells are photographs taken at each well site and a spreadsheet identifying the corrective actions undertaken at each well site, as well as the current status of each of the wells. Each photograph is dated and timed and demonstrates the corrective actions undertaken in response to the matters addressed in your October 23, 2009 letter.

Per the enclosed materials, we successfully addressed all of the matters specified in your letter before the corrective action deadline of November 25, 2009. Following our compliance meeting in Santa Fe on November 20<sup>th</sup>, Jayme Wollison, our Senior Director of Operations, personally inspected each of the well sites on November 24<sup>th</sup> to verify that all required corrective actions had been completed and ensure that all of the injection wells were in compliance with the Division's order.

We have ordered signs for all our well sites that do not have a current Cano sign. The signs are being made at this time and should all be shipped by December 27, 2009. We are also beginning the process of inspecting all of our other wells, for purposes of checking for any possible compliance issues and remedying those as we find them.

All injection wells are in compliance in addition to wells with violations.

ALL OTHER ADJOINING LEASES HAVE BEEN INSPECTED AND ARE BEING MADE SURE THEY ARE ALSO IN COMPLIANCE .

All wells have had new signs ordered and are awaiting them to be made and delivered.
