WESLEY

MOC was drilling the 12 1/4" hole for the above caption well. At 4413', the drill string became stuck. Several attempts were made to recover fish, but could not get the bottom 333' (Top of fish @ 4080'). Talked to Wes Ingram on 11/20/09 & explained the situation. If Plug & Kick-Around was needed, set 300-500' cement plug. On 11/22/09, operations to kick around were approved. Contacted Andy Cortez w/BLM on 11/22/09 & gave plans to cement w/525 sks Class H w/retrader mixed @ 17 #/g w/1.01 yd. from 4080'(TOF) to 3580'. Plans were approved. Will send in cement information & chart on subsequent report.

Andy gave verbal approval. The amount of cement (525sx) planned calculates to 69% excess for the 500ft plug.
