Final Abandonment Notices must be filed only after all requirements, including reclamation, have been completed and the operator has determined that the site is ready for final inspection.)

Seely Oil Company's EKPSU #401 well began water injection into the Penrose Sand on September 29, 2006 as shown on the accepted C-103 issued by the OCD and signed by Gary Wink.. Seely Oil Company was trying to secure a right-of-way so that a line connecting the well to the water injection system could be installed. That right-of-way was secured in July 2006.
