ATTN: Mr. Buddy Hill District Supervisor

RE: South Hobbs (GSA) Unit Well No. 244 API No. 30-025-35742 Letter E, Section 34, T-18-S, R-38-E Lea County, NM

Dear Mr. Hill:

Attached please find Form C-103 (Subsequent Report) accounting for the recent temporary abandonment of the subject well. Please note that the TxA of the well was a change in scope from the originally planned procedure. While rigged up on the well to perform a wellhead upgrade (change out bowl adapter and valves), it was observed that excessive scale and other sediment had fallen in on the ESP. A decision was made to pull and replace the ESP given the amount of sediment as well as the age of the equipment. However, the well would still have had to remain shut-in for several months pending replacement of the offset injection trunkline. As such, OXY felt it would be prudent not to run new equipment that would have to sit idle until offset injection can be brought back online (estimated to occur sometime in April, 2010). Therefore, temporary abandonment was deemed the best course of action to take under these circumstances.

If you have any questions of a technical nature, please contact OXY's Jason Sevin at (713) 366-5105. Otherwise, please call me at (713) 366-5158.

Very Truly Yours,

Mark Stephere
