11. Country or Parish, State  
LEA CO., NM

**12. CHECK THE APPROPRIATE BOX(ES) TO INDICATE NATURE OF NOTICE, REPORT OR OTHER DATA**

TYPE OF SUBMISSION	TYPE OF ACTION			
<input type="checkbox"/> Notice of Intent	<input type="checkbox"/> Acidize	<input type="checkbox"/> Deepen	<input type="checkbox"/> Production (Start/Resume)	<input type="checkbox"/> Water Shut-Off
<input checked="" type="checkbox"/> Subsequent Report	<input type="checkbox"/> Alter Casing	<input type="checkbox"/> Fracture Treat	<input type="checkbox"/> Reclamation	<input type="checkbox"/> Well Integrity
<input type="checkbox"/> Final Abandonment Notice	<input type="checkbox"/> Casing Repair	<input type="checkbox"/> New Construction	<input type="checkbox"/> Recomplete	<input checked="" type="checkbox"/> Other <u>Site Facility Diagram</u>
	<input type="checkbox"/> Change Plans	<input type="checkbox"/> Plug and Abandon	<input type="checkbox"/> Temporarily Abandon	
	<input type="checkbox"/> Convert to Injection	<input type="checkbox"/> Plug Back	<input type="checkbox"/> Water Disposal	

13. Describe Proposed or Completed Operation: Clearly state all pertinent details, including estimated starting date of any proposed work and approximate duration thereof. If the proposal is to deepen directionally or recomplate horizontally, give subsurface locations and measured and true vertical depths of all pertinent markers and zones. Attach the Bond under which the work will be performed or provide the Bond No. on file with BLM/BIA. Required subsequent reports must be filed within 30 days following completion of the involved operations. If the operation results in a multiple completion or recompletion in a new interval, a Form 3160-4 must be filed once testing has been completed. Final Abandonment Notices must be filed only after all requirements, including reclamation, have been completed and the operator has determined that the site is ready for final inspection.)

Enclosed please find an original and one copy of the current Site Facility Diagram for the above referenced lease.

Site Security Plan

1. Marbob Energy Corporation periodically measures all production volumes to make sure the lease is in compliance with the site security requirements. We monitor the lease, and document our findings on gauge sheets, run tickets and seal records.
2. Marbob pumpers are required to keep seal records to monitor the removal of production by recording the date and seal number on a seal report every time a seal has been replaced. It is also the pumper's responsibility to check the accuracy of all run tickets that are made for this facility.
3. In the instance of theft or mishandling of oil, Marbob will report the incident to the BLM by the next business day. The transporter will also be notified of the incident.
4. Marbob can ensure that there are no by-pass meters due to the inspections done by the pumper and production foreman.
5. Leases, com agreements, unit agreements & specific facilities related to this unit will be provided with the site facility diagram.
6. The site facility diagram & all other required documentation has been sent to the BLM. Copies of all documentation can also be found in Marbob's well & lease files.
