13. Describe proposed or completed operations. (Clearly state all pertinent details, and give pertinent dates, including estimated date of starting any proposed work). SEE RULE 19.15.7.14 NMAC. For Multiple Completions: Attach wellbore diagram of proposed completion or recompletion.

The original APD for the Walter Lynch Well No. 10 was approved by the Division on 10/23/2009. The well was originally to be drilled 990' FNL & 990' FWL (Unit D/Lot 4) of Section 1, T-22 South, R-37 East. On 2/2/2010, the Division approved an amended well location for the subject well 990' FNL & 1650' FWL (Unit C/Lot 3) of Section 1.

* Apache now seeks approval of a second amended well location. Apache proposes to drill the Walter Lynch No. 10 at a standard location 990' FNL & 1800' FWL (Unit C/Lot 3) of Section 1, T-22 South, R-37 East.

The Walter Lynch No. 10 will be completed in the Blinebry Oil & Gas Pool (6660), Tubb Oil & Gas Pool (60240), South Brunson Drinkard-Abo Pool (7900) and Wanzt-Granite Wash Pool (62730).

Attached is new C-102 Acreage Dedication Plats showing the amended well location and pool completion data.
