

The figure is a survey map on a grid. It shows a well location marked with a cloud and a central point labeled 'S.L.' with coordinates 4377.3' and 4375.8'. A dashed line connects this point to a 'BOTTOM HOLE LOCATION' at the top left, which has coordinates LAT.: N 33°01'16.86" and LONG.: W103°47'59.56". Another dashed line connects the well location to a 'SURFACE LOCATION' at the top right, which has coordinates LAT.: N 33°01'17.15" and LONG.: W103°47'05.25". Distances are marked along the grid lines: 330' and 709' on the left, 4626' on the top, 330' and 660' on the right, 4370.3' and 4367.0' on the bottom, and 330' on the right side of the well location. A scale bar at the bottom indicates 0, 100, and 200 feet.

OPERATOR CERTIFICATION

I hereby certify that the information contained herein is true and complete to the best of my knowledge and belief, and that this organization either owns a working interest or unleased mineral interest in the land including the proposed bottom hole location pursuant to a contract with an owner of such a mineral or working interest, or to a voluntary pooling agreement or a compulsory pooling order heretofore entered by the division.
