13. Describe Proposed or Completed Operation: Clearly state all pertinent details, including estimated starting date of any proposed work and approximate duration thereof. If the proposal is to deepen directionally or recompleat horizontally, give subsurface locations and measured and true vertical depths of all pertinent markers and zones. Attach the Bond under which the work will be performed or provide the Bond No. on file with BLM/BIA. Required subsequent reports must be filed within 30 days following completion of the involved operations. If the operation results in a multiple completion or recompleat in a new interval, a Form 3160-4 must be filed once testing has been completed. Final Abandonment Notices must be filed only after all requirements, including reclamation, have been completed and the operator has determined that the site is ready for final inspection.)

ConocoPhillips respectfully submits the below change to the previously approved NOI for recompleat.

Instead of spotting a 200' cement plug from 9220-9420' COP wishes to change the procedure to read.

TIH with 2 3/4" workstring and latch onto RBP at 7681'. TOOH with 2 3/4" workstring and RBP. TIH with 7 1/2" cement retainer on 2 3/4" workstring to 9200'+ and set cement retainer. Use fresh water to pump into cement retainer. If able to pump into retainer, pump 50 sacks of Class C cement. Displace 40 sacks of cement out of 2 3/4" workstring to cement retainer. Sting out of cement retainer, dump 10 sacks of cement on top of cement retainer, and reverse circulate. TOOH with 2 3/4" workstring. Stand back 2 3/4" workstring. Haul in 3 1/2", 9.3#, N-80 workstring.

The remainder of the procedure will remain the same.

14. I hereby certify that the foregoing is true and correct Name (Printed/Typed)
