13. Describe Proposed or Completed Operation (clearly state all pertinent details, including estimated starting date of any proposed work and approximate duration thereof. If the proposal is to deepen directionally or recompleat horizontally, give subsurface locations and measured and true vertical depths of all pertinent markers and zones. Attach the Bond under which the work will be performed or provide the Bond No. on file with BLM/BIA. Required subsequent reports shall be filed within 30 days following completion of the involved operations. If the operation results in a multiple completion or recompleat in a new interval, a Form 3160-4 shall be filed once testing has been completed. Final Abandonment Notices shall be filed only after all requirements, including reclamation, have been completed, and the operator has determined that the site is ready for final inspection.)

On 04/21/2010 the JC FEDERAL #40 flowline had a leak just off the southern edge of the location. The flowline was immediately repaired and put back into service. Less than 1 bbl was released and there was no fluid recovered. There is an area 120' x 120' in the pasture that has been oversprayed. The legal description of the spill site is as follows:
