- 13 Describe Proposed or Completed Operation (clearly state all pertinent details, including estimated starting date of any proposed work and approximate duration thereof. If the proposal is to deepen directionally or recompleat horizontally, give subsurface locations and measured and true vertical depths of all pertinent markers and zones. Attach the Bond under which the work will be performed or provide the Bond No. on file with BLM/BIA. Required subsequent reports shall be filed within 30 days following completion of the involved operations. If the operation results in a multiple completion or recompleat in a new interval, a Form 3160-4 shall be filed once testing has been completed. Final Abandonment Notices shall be filed only after all requirements, including reclamation, have been completed, and the operator has determined that the site is ready for final inspection.)

OPERATIONS UPDATE & Notification of the cessation of swab testing & release of the service rig:

Following the frac on 3/10/10, the well was cleaned out & swab tested until 3/26/10 when the service rig was moved off location. Approximately 52.5% of the frac load had been recovered and the decision was made to build a battery and place the well on pump. Battery construction began on 4/12/10. A heater treater and the oil & water storage tanks were delivered on 4/14/10. Battery construction was mostly completed by 4/22/10 when operations were shut down to await the arrival of a Frontier Field Services gas pipe line. It is estimated that the gas pipe line will be operable and that the well can be placed on production in early June 2010.

PLEASE KEEP ALL INFORMATION CONFIDENTIAL FOR THE MAXIMUM ALLOWABLE PERIOD OF TIME.

14. I hereby certify that the foregoing is true and correct Name (Printed/Typed) E. Reed Fischer		Title Senior Operations Engineer
