13. Describe proposed or completed operations. (Clearly state all pertinent details, and give pertinent dates, including estimated date of starting any proposed work). SEE RULE 19.15.7.14 NMAC. For Multiple Completions: Attach wellbore diagram of proposed completion or recompletion.

The original APD for the E W Walden No. 16 was approved by the Division on 2/24/2010. The well was originally to be drilled as a directional well from a surface location 2000' FSL & 1550' FWL (Unit K) to an unorthodox bottomhole location 1309' FSL & 1303' FWL (Unit M) of Section 15, T-22S, R-37E.

Apache Corporation requests approval of an amended surface and bottomhole well location as follows:

* Surface Location: 1343' FSL & 1415' FWL (Unit K) *

* Bottomhole Location: 1308' FSL & 1303' FWL (Unit M) *

As originally permitted, the E W Walden No. 16 will be completed in the Blinebry Oil & Gas (6660), Tubb Oil & Gas (60240), Drinkard (19190) and Wantz-Abo (62700) Pools.

Apache has filed a request with OCD-Santa Fe to amend NSL-6146-A to reflect the revised unorthodox bottomhole location.

Attached is new C-102 Acreage Dedication Plats showing the amended well location and pool completion data.
