13. Describe Proposed or Completed Operation (clearly state all pertinent details, including estimated starting date of any proposed work and approximate duration thereof. If the proposal is to deepen directionally or recomplete horizontally, give subsurface locations and measured and true vertical depths of all pertinent markers and zones. Attach the Bond under which the work will be performed or provide the Bond No. on file with BLM/BIA. Required subsequent reports shall be filed within 30 days following completion of the involved operations. If the operation results in a multiple completion or recompletion in a new interval, a Form 3160-4 shall be filed once testing has been completed. Final Abandonment Notices shall be filed only after all requirements, including reclamation, have been completed, and the operator has determined that the site is ready for final inspection.)

Call BLM for cooperative inspection of site.

Remove all unnecessary barrels or other sundry containers and items. Pick up any trash.

Vertically delineate any areas identified by inspection and clean up or remediate as required.

Install netting over various sited open chemical catchments or containments.

Improve and clean up area under and around circulation pump. Upgrade with more suitable drip pan/container.

Repair and upgrade berms around tank facilities as necessary.

*** Notify Paul Evans @ 575-234-5977 prior to start and prior to testing and closure.**
