13. Describe Proposed or Completed Operation (clearly state all pertinent details, including estimated starting date of any proposed work and approximate duration thereof. If the proposal is to deepen directionally or recompletable horizontally, give subsurface locations and measured and true vertical depths of all pertinent markers and zones. Attach the Bond under which the work will be performed or provide the Bond No. on file with BLM/BIA. Required subsequent reports shall be filed within 30 days following completion of the involved operations. If the operation results in a multiple completion or recompletable in a new interval, a Form 3160-4 shall be filed once testing has been completed. Final Abandonment Notices shall be filed only after all requirements, including reclamation, have been completed, and the operator has determined that the site is ready for final inspection.)

Devon Energy Production Company, L. P. respectfully requests that due to a lack of an angle build, the Nana 30 Fed 1H will be plugged back from current TD 8070' to 7300'. The cement volume will be 375 sx Class H w/ 5% salt, 18 ppg w/ a .9cf/sx Yld. Approximately 12 hours after the cement, directional tools will be run in the hole and the curve building process will begin (this to occur within 20 hours).
