13 Describe Proposed or Completed Operation. Clearly state all pertinent details, including estimated starting date of any proposed work and approximate duration thereof. If the proposal is to deepen directionally or recompleate horizontally, give subsurface locations and measured and true vertical depths of all pertinent markers and zones. Attach the Bond under which the work will be performed or provide the Bond No. on file with BLM/BIA. Required subsequent reports must be filed within 30 days following completion of the involved operations. If the operation results in a multiple completion or recompleation in a new interval, a Form 3160-4 must be filed once testing has been completed. Final Abandonment Notices must be filed only after all requirements, including reclamation, have been completed and the operator has determined that the site is ready for final inspection.)

Per telephone conversation with Mr. Wesley Ingram, Marbob Energy Corporation respectfully requests approval to drill out the surface plug @ 0 - 60' so we can run a retrievable bridge plug below the wellhead to test against for our BOP test. Well integrity is ensured by the retainer at 1237' that has 338' cement below it and by the cement circulated between the 9 5/8" & 7" casings from 1575' to surface.
