13. Describe Proposed or Completed Operation: Clearly state all pertinent details, including estimated starting date of any proposed work and approximate duration thereof. If the proposal is to deepen directionally or recompleat horizontally, give subsurface locations and measured and true vertical depths of all pertinent markers and zones. Attach the Bond under which the work will be performed or provide the Bond No. on file with BLM/BIA. Required subsequent reports must be filed within 30 days following completion of the involved operations. If the operation results in a multiple completion or recompleat in a new interval, a Form 3160-4 must be filed once testing has been completed. Final Abandonment Notices must be filed only after all requirements, including reclamation, have been completed and the operator has determined that the site is ready for final inspection.)

Request for 13 day extention to start/resume production on this well/facility. Current deadline for production start-up is 9/2/2010
Currently working on repair/clean out of tanks and vessels at production facility - should be completed within 14 days from 9/1/2010

Due to abvailibility of pulling units and weather/road conditions, we were unable to get rigged up on the Federal 24 #2 well to repair the downhole failure. We now have a pulling unit in the area and should be rigging up on the well within the next two days.

Anticipate this well returning to production status by 9/15/2010
