13. Describe Proposed or Completed Operation (clearly state all pertinent details, including estimated starting date of any proposed work and approximate duration thereof. If the proposal is to deepen directionally or recompleat horizontally, give subsurface locations and measured and true vertical depths of all pertinent markers and zones. Attach the Bond under which the work will be performed or provide the Bond No. on file with BLM/BIA. Required subsequent reports shall be filed within 30 days following completion of the involved operations. If the operation results in a multiple completion or recompleat in a new interval, a Form 3160-4 shall be filed once testing has been completed. Final Abandonment Notices shall be filed only after all requirements, including reclamation, have been completed, and the operator has determined that the site is ready for final inspection.)

T.J.G. Energy Co LLC Has Purchased This Lease and intends To Produce it.

Conditions of Approval

T.J.G. Energy Co LLC

Federal 3 Well #2

1. Submit plan for approval of well operations within 30 days of this approval to change operator.

The Bureau of Land Management (BLM) and Minerals Management Service (MMS) definition of a Shut-in (SI) or Temporarily Abandoned (TA) are as follows. Shut-in well is a completion that is physically and mechanically capable of production in paying quantities or capable of service use. The definition of a temporarily abandoned well is a completion that is not capable of production in paying quantities, but which may have value as a service completion.

43 CFR 3162.3-4 (C) requires that wells incapable of production in paying quantities be promptly plugged and abandoned and requires approval for any well temporarily abandoned for more than 30 days.

Therefore, an Operator must submit a Sundry Notice as a Notice of Intent prior to beginning any operation. It may be approved with condition of approval attached. You need to submit a plan for the well within in 30 days stating your intent for the well.

Do one of the following.

1. **Return the well to production or beneficial use.**
2. **Submit notice of intent to plug and abandon.**

If you decide to **plug and abandon** the well, submit a Sundry Notice (form 3160-5, original and 3 copies) describing the proposed plugging program with before and after diagrams of well bore.

If you decide to **return the well to production**, submit a Sundry Notice (form 3160-5, original and 3 copies). Include the date you anticipate the well being placed back in service. 43 CFR 3162.4-1(c) also requires you to notify the Authorized officer, not later than the fifth business day after production is resumed for any well which has been off production for more than 90 days, include the date on which such production was resumed. Notification may be by letter or Sundry Notice, or orally followed by letter or Sundry Notice.

2. All outstanding environmental issue must be addressed within 90 days. Contact Jim Amos for inspection and to resolve environmental issues. 575-234-5909
