13. Describe Proposed or Completed Operation: Clearly state all pertinent details, including estimated starting date of any proposed work and approximate duration thereof. If the proposal is to deepen directionally or recomplete horizontally, give subsurface locations and measured and true vertical depths of all pertinent markers and zones. Attach the Bond under which the work will be performed or provide the Bond No. on file with BLM/BIA. Required subsequent reports must be filed within 30 days following completion of the involved operations. If the operation results in a multiple completion or recompletion in a new interval, a Form 3160-4 must be filed once testing has been completed. Final Abandonment Notices must be filed only after all requirements, including reclamation, have been completed and the operator has determined that the site is ready for final inspection.)

ConocoPhillips Company respectfully request to TA the above well for a time period not to exceed one (1) year. We moved on the location on 8/18/10 with the intent to reactivate the well. Junk and fish were discovered in the hole and after multiple attempts to retrieve this, the decision was made to set a plug above the junk and fish and RDMO on 9/10/2010. The plug was set at 2010' and was witnessed by a representative of the BLM. The TA approval is to allow time to evaluate the current wellbore and make plans to plug and abandon. This well has never had a TA approval in the past and last produced and production reported in April 2009.

*No Approval to set plug above Junk prior to work being done*

After 3-30-2011 the well must be online or plans to P & A must be submitted.

*THIS IS THE LAST TA APPROVAL*

*LAST prod 4/2009*

14 I hereby certify that the foregoing is true and correct. Name (Printed/Typed)  
Donna Williams
