13. Describe Proposed or Completed Operations (clearly state all pertinent details, including estimated starting date of any proposed work and approximate duration thereof. If the proposal is to deepen directionally or recompleat horizontally, give subsurface locations and measured and true vertical depths of all pertinent markers and zones. Attach the Bond under which the work will be performed or provide the Bond No. on file with BLM/BIA. Required subsequent reports shall be filed within 30 days following completion of the involved operations. If the operation results in a multiple completion or recompleat in a new interval, a Form 3160-4 shall be filed once Testing has been completed. Final Abandonment Notices shall be filed only after all requirements, including reclamation, have been completed, and the operator has determined that the site is ready for final inspection.)

from approx. 8600'

Yates Petroleum Corporation respectfully requests permission to change the pilot hole depth on this well to approx. 8600' ± 100'. After TD of the pilot hole, logs will be run and the lateral zone will be determined. Well will then be plugged back and kicked off at 12"/100' at a depth that will allow for landing and drilling horizontal in the determined pay zone.
