Dear Operator.

During recent inspections of the Grouper wells located in Sec 14 T16S R32E, Lea County, New Mexico, the discovery of several idle electric power poles and electric line was noted. Hobbs District 1, OCD office is taking an active role in the elimination of idle power poles and overhead electric wire after the wells have been plugged and abandoned. If future operations do not require the existing power system, OCD would request removal of poles and line. OCD feels that the removal will eliminate future problems of downed poles and line due to weather conditions, grass fires or aging equipment.

Grouper #1 30-025-37426
Grouper #2 30-025-35099

Total of 19 poles and overhead line.

Thanks,

COMPLIANCE OFFICER

Maxey G. Brown
