13 Describe Proposed or Completed Operation (clearly state all pertinent details, including estimated starting date of any proposed work and approximate duration thereof. If the proposal is to deepen directionally or recompleat horizontally, give subsurface locations and measured and true vertical depths of all pertinent markers and zones. Attach the Bond under which the work will be performed or provide the Bond No on file with BLM/BIA. Required subsequent reports shall be filed within 30 days following completion of the involved operations. If the operation results in a multiple completion or recompleat in a new interval, a Form 3160-4 shall be filed once testing has been completed. Final Abandonment Notices shall be filed only after all requirements, including reclamation, have been completed, and the operator has determined that the final site is ready for final inspection.)

EOG Resources plugged-back the subject well as per the discussion between Robert Soza (EOG) and Chris Walls (BLM) on Saturday, 10/2/10 at 7:50 AM CST. The plug back was needed in order to drill around a parted motor and bit that was left in the hole. A cement plug (300 sx) was spotted from the top of the fish at +/- 9346' to 8796' (550'). Plans are to dress-off the cement plug to 9050' md and redrill the curve and lateral as per the attached directional plan.
