13. Describe Proposed or Completed Operation (clearly state all pertinent details, including estimated starting date of any proposed work and approximate duration thereof. If the proposal is to deepen directionally or recompleat horizontally, give subsurface locations and measured and true vertical depths of all pertinent markers and zones. Attach the Bond under which the work will be performed or provide the Bond No. on file with BLM/BIA. Required subsequent reports shall be filed within 30 days following completion of the involved operations. If the operation results in a multiple completion or recompleat in a new interval, a Form 3160-4 shall be filed once testing has been completed. Final Abandonment Notices shall be filed only after all requirements, including reclamation, have been completed, and the operator has determined that the site is ready for final inspection.)

BLM ORDER: 03-018-10W

7/7/2010:

This is a notice of intent to fully inspect and test the stock tank(s) on location that are currently not being used. If the equipment is found to be unusable, it will be hauled to the Cato yard and disposed of properly. If the equipment is found to be usable, it will stay on location because, in the future, we intend to return to production several wells in the area.
