13. Describe Proposed or Completed Operation (clearly state all pertinent details, including estimated starting date of any proposed work and approximate duration thereof. If the proposal is to deepen directionally or recompleat horizontally, give subsurface locations and measured and true vertical depths of all pertinent markers and zones. Attach the Bond under which the work will be performed or provide the Bond No. on file with BLM/BIA. Required subsequent reports shall be filed within 30 days following completion of the involved operations. If the operation results in a multiple completion or recompleat in a new interval, a Form 3160-4 shall be filed once testing has been completed. Final Abandonment Notices shall be filed only after all requirements, including reclamation, have been completed, and the operator has determined that the site is ready for final inspection.)

Talon is taking samples of the old water pit at the surface and at 8 inches during the week of Oct 25, 2010. We need to wait on the containment berm due to the fact that the pit will be in the way. Talon will carbon copy the sample results to the BLM. Work will begin as soon as BLM approves plan. The work should take about a week. The pit has not been in use since Freedom LLC has operated this well. We are not including a clean up plan because we are hoping the ground is not contaminated.
