RE: Cooper #001 API # 30-025-28166; OGRID # 267077

To Whom It May Concern:

This letter is being submitted as an attachment to #31 on Form C105. Mas Operating Co. acquired this well from the New Mexico OCD through an agreed compliance order in September 2010. We have not done any work down hole on this well since we took over operation. All we have are the proposed work that was submitted by Platinum Exploration on the C103 they filed. (Please see this attached to letter.)

We do not know if the work that Platinum proposed was completed or not. Mas Operating has not completed any well hole work on the Cooper #001. This well is flowing. We do not have any completion reports on this well and therefore cannot submit something that we do not have and are not sure of.

If you have any questions please feel free to contact me via email at sunderwood@megadyneco.com or by phone at the above number. You may also contact Brantley Heiser out of our Midland, Texas office via email at bwheiser@sbcglobal.net or by phone at 432-349-3846.

We apologize for any inconvenience that this may cause but we have not proposed or performed any work on this well and have no other information other than the information Platinum Exploration submitted.

Sincerely,

Stephanie Underwood
Office Manager
