Final Abandonment Notices shall be filed only after all requirement, including reclamation, have been completed, and the operator has determined that the site is ready for final inspection)

Devon Energy Production Company respectfully requests to plug the Trionyx 6 Federal 3H conductor hole and re-drill the conductor hole at a location 25' to the west. The hole was drilled to 80', when the auger became stuck. We have attempted to free the auger by pulling on it with a 300 ton crane and have determined that it cannot be removed. We will fill the abandoned conductor hole with ready mix cement from surface to TD. The auger will be cut off at the surface and left in the hole. The new conductor will be drilled 25' to the west to accomodate the skidding equipment on the H & P 214.
