He further makes mention of the fact that we have not filed Form C-102. I called Mr. Paul D. Beard, 1323 Montreal, Dallas, Texas, Phone No. Madison-1035 and he advises me that Form C-102 is to be filed when I commence testing for production in the 7" casing which is out of 3, by first but that it is our understanding that we do not have to test the well until such time as we see fit to test or at such time as we have satisfied ourselves that we have merchantable title to the properties which we are now in the process of checking.

I am very sorry that all of this matter had to come up before you.

Yours very truly,
