

Lubbock, Texas.

June 11, 1949.

Mr. Roy Yarbrough,
Oil Conservation Commission,
Hobbs, New Mexico.

Dear Sir:

Following my visit to your office yesterday with reference to F. R. Jackson - A. W. Skarda Well No. 1, Curry County New Mexico, we have had forwarded to your office the following:

1. Certified Engineer's plat showing the correct location of the well to be 330' out of the SW/4 of the SE/4 of Section 3.
2. Telegram from bonding company stating blanket bond in the amount of \$10,000 has been made and is now effective. Telegram also sent by bonding company to your Santa Fe office.

In connection with the well the following reports are enclosed herewith:

1. Form C-101 - Corrected report giving the location as certified by licensed suveyor.
2. Form C-102 - Notice of intention to test surface casing
3. Form C-103 - Report on result of test of casing on shut-off on surface casing.
4. Form C-102 - Notice of intention to test casing shut-off on oil string at 3100'.

We trust you shall find all of the above in order and everything necessary has been done. However, if there is anything else you desire we shall be glad to comply upon hearing from you.

We assure you that we appreciate your help and cooperation in getting everything in order and also assure you this will not happen on future wells. This is our first well in New Mexico but we will know what to do next time.

Again thanking you, we remain

Yours very truly,

F. R. JACKSON
